## Summary – 10+ years of software development

| | | | |
|---|---|---|---|
| Java | 8 years | Scrum / agile | 6 years |
| Springframework | 7 years | Team coaching | 4 years |
| Hibernate | 7 years | Unit tests and CI | 7 years |
| MS Sqlserver | 5 years | Oracle 8 & 9i | 3 years |
| SQL | 10+ years | Oracle 10 | 2 years |

## Working experience

### Software Developer, Cegeka (2010 – present) – Freelance

Part of a large agile (Scrum/Kanban) team of developers, that builds software using a 2 week release cycle. My job responsibilities:

- analysis, design, coding, documentation
- coaching developers (coding, agile practices)
- lead of the information radiators competence center

Oracle 10, Java, SQL, HTML, CSS, XML, Javascript, Hibernate 3.x, Kodo JDO, Spring framework 3.x, EJB, JUnit, Selenium, Ant, Yourkit, Hudson, Clearquest, Eclipse 3.x, JSP, JSF, Facelets, JaXB, XmlBeans, Sun Application Server

### Technical project lead, Tourism Flanders (2006 – 2010) - Realdolmen/Freelance

Introduced Scrum and agile practices, resulting in continuous on-time product releases. Coached a team of 4 to 7 software developers while also contributing to the projects as a programmer. My job responsibilities:

- task-force member, direct end-user contact, analysis, design, coding, documentation
- coaching developers (coding, agile practices)
- introduction of scrum and agile practices
  - standup meetings, sprint planning, backlog planning, taskboard en burndown
  - test driven development and automated unit testing (8000+ unit tests)
  - automated functional testing using Selenium (1400+ selenium tests)
  - continuous integration
  - automatic daily deploy in a test environment and one-button deploy for acceptation environment.
  - short release cycles: production releases every 3 weeks.
- coordinating end-user testing (within the 3 week release cycles)
- realease management, branching/merging
- deployment to production environment, support and bugfixing

- job interviews with new developers

MS SQLServer 2005, Java, Javascript, DWR, SQL, HTML, CSS, XML, Hibernate 3.x, Spring framework 2.5, Acegi, Spring web flow, JUnit, Selenium, Ant, JProfiler, Yourkit, Teamcity, JIRA, Log4J, IntelliJ IDEA, JSP, JSTL, Axis, JaXB, IText, Apache POI, GWT, Google maps API, Tomcat 6
*Past: Dojo toolkit 0.4, Maven 2, Eclipse 3.x, JBoss AS 4.0.x, Mantis, Bamboo, CruiseControl, Continuum, DBUnit*

## Software Developer, Gudrun (2005 – 2006) - Realdolmen

Development of a claims handling application for an insurance company.

MS SQLServer 2000 & 2005, Java, Javascript, SQL, HTML, XML, CSS, UML, Hibernate 2.x, Spring framework, Acegi, Velocity, JUnit, DBUnit, HtmlUnit, Ant, JMeter, JProbe, JProfiler, Yourkit, CruiseControl, Log4J, XDoclet, BugZilla, Eclipse, Poseidon UML, Caucho Resin 3.x

## Product Engineer, LibriCore bvba (2003 - 2005)

Development of an authority records loading tool for AMICUS 3.5, LibriQuest: a web based inter library loan application, LibriCat: a thin cataloguing client and ongoing support and releases of AMICUS 3.5.x

Oracle 8 & 9i, C, Java, Javascript, SQL, PL/SQL, Pro*C, HTML, XML, XSLT, CSS, UNICODE, MARC21, Z39.50, UML, Hibernate, Struts, JSP, JDBC, Ant, Eclipse IDE, JUnit, CruiseControl, Tomcat, Rational Rose, Toad, AIX, Linux, ksh

## Product Engineer, EliAS nv (2001 - 2002)

Library management software, customers in Spain, Italy, Hungary, Australia,…
Development of AMICUS 3.5: adapting the search engine and database for UNICODE support, switching full text searching from Fulcrum to Oracle Context and porting the search engine (C code) from AIX to Linux and Solaris. Maintenance and support for the bibliographic data loading tool.

Oracle 8 & 9i, C, SQL, PL/SQL, Pro*C, HTML, UNICODE, MARC21, Z39.50, Toad, AIX, Linux, ksh

## Education

### KULeuven (Katholieke Universiteit Leuven) - Faculty of Science (1997-2001)
Diploma of 'licentiaat in de informatica'

Master's thesis:    Learning Go
   Discovering evaluation functions for GO game positions by means of top down induction of logical decision trees and reinforcement learning.

## Relevant knowledge and Interests

### Languages
Dutch:      native language
English:    fluent
French:     passive knowledge
Japanese:   notion

**Interests**

Team coaching, object oriented analysis and design, refactoring, Test Driven Development, agile software development, domain driven design, design patterns, machine learning, artificial intelligence

**Personal projects**

Experience with: sencha touch 2, phonegap, google appengine, lucene
Creator of the Shortcut Translator plugin for Intellij IDEA, RubyMine, WebStorm, PhpStorm, RubyMine and PyCharm (http://plugins.intellij.net/plugin/?idea&id=6827)
